

Pennsylvania Gunsmith School®

CATALOG INSERT – BOOKS, COURSE MATERIALS, EQUIPMENT (TOOLS) AND SUPPLIES AND GUNS

Tools, supplies, parts and guns are needed as the student progresses through the program. The costs of these items are in addition to tuition. They may be purchased through the school or from any source the student wishes. Actions, barrels and stock blanks will be needed to produce the custom gun projects. The program of instruction will utilize all of the items in creating not only instructional material, but also valuable tools, fixtures and custom guns, which will be invaluable to the student seeking employment or for use and display in their own shop.

It is important to remember that the prices listed below are **estimates** only and some items may not need to be purchased if the student has any of the tools, supplies or guns in their possession or has access to them. A list of the required items may be requested after a start date has been assigned.

*The amounts listed below are for the required tools and supplies to complete the educational objectives of the program. A student may choose to spend more than the amounts listed on optional parts, supplies, etc. **Please keep in mind that the student's primary objective is to obtain an education.***

****ESTIMATES ONLY****

Semester	Tuition	Tool Kits	Addl. Supplies	Stock Woods, Finishes, Etc.	Barrels, Actions, Parts, Etc.	Total Tools, Supplies, Parts, etc.
I: Introduction to Gunsmithing	\$9200	\$2425	\$500			\$2925
II: Intermediate Gunsmithing I	\$9200	\$1820	\$85	\$100	*	\$2005
III: Intermediate Gunsmithing II	\$9200	\$1200	\$250			\$1450
IV: Advanced Gunsmithing	\$9200	\$85	\$500	†	\$2500	\$3085

† Amount included in \$2500 project parts total.

Remember to keep in mind that the student's primary objective is to obtain an education. It is easy to get very excited and involved in the program and buy more expensive woods, actions and accessories than is absolutely necessary. Every person's financial ability is different, so plan according to finances and educational objectives and not to desires.

Tool kits are provided for students to purchase at the beginning of each semester. Students are responsible for ensuring they have the necessary tools, supplies and gun parts needed for each semester.

Miscellaneous Items

Miscellaneous items such as shop towels, Q-tips, plastic containers, notebooks, pens and paper will be needed throughout the program. Many of these items the student may already have.

Financial Aid

If a student qualifies, financial aid may be applied for twice during the program to help cover costs: once for Semesters I and II (academic year 1 or freshman) and again for Semesters III and IV (academic year 2 or sophomore)
